Contents		
On an advanced level, seminars are offered, which, on the one hand, present an overview of different areas of applied linguistics or different structural description levels of the English language from a typological view, on the other hand, seminars that focus on a current research area of linguistics; the main focus can also be selected methodologically (for example corpus linguistics or empirical linguistics).		
Intended learning outcomes		
Students acquire detailed knowledge of a linguistic focus (content-related and/or methodological) and are able to summarise and critically reflect on current linguistic research; they broaden their knowledge concerning the identification and analysis of English linguistic phenomena in selected linguistic data and become aware of the relevance of linguistics and its importance for society; in first steps, they are instructed to conduct research on their own.
