Contents

Students will be introduced to an essential sub-area of Latin Philology. Within this framework: they will be introduced to interpretation methods, elements of text analysis and literary-historical contexts; they will get an overview of intellectual-historical and cultural backgrounds and gain insights into the history of transmission and historical influence. The students will translate more demanding texts* (poetry) from the field of Latin literature into German; in the course of this, they will repeat essential chapters of school grammar and discuss metrical phenomena. They will be instructed in linguistic-historical and stylistic text analysis and introduced to various methods of interpretation.

Intended learning outcomes

Students get an overview of Latin literature in its genres; they are able to interpret important Latin authors and works; they have knowledge of important sections of Roman literary history; they are familiar with their cultural-historical backgrounds. Students have an in-depth ability to develop a limited sub-area of Latin literature with the methodological tools of classics and have extensive experience with various methods of interpretation and their application.
