| In this module, the sources, musical testimonies and cultural-historical conditions of European music history from antiquity to the end of the Middle Ages (around 1420) and their music-historiographical interpretation are studied. The focus is on phenomena and historical processes in the field of music and musical thinking. Using significant examples, specific methods of the Humanities (such as philological, descriptive, comparative and analytical working methods) and of speaking about music (such as specialist terminology and use of metaphor) are taught, reflected and practised. |                   |              |                                      |                                |                    |
