Contents		
In this module, students are provided with the basics of Organology. Subject areas are, for example, organological systematics (comparative if necessary), organology in cultural, intercultural, sociological, instrument group-specific and/or building history terms, acoustics, and finally instrumentation theory. A documentary or museum pedagogical project can also be offered at the Study Collection Musical Instruments and Media at the Institute for Music Research.		
Intended learning outcomes		
The student has basic knowledge in the field of Organology. He/she is able to present the acquired knowledge appropriately, for example by designing documentary or museum educational work in outline and conduct it under supervision.
