| The module covers central concepts and methods in the field of phonology, morphology, syntax, lexicology, semantics and pragmatism. Moreover, students will be able to apply the central concepts and methods to the Spanish. Central issues and methods of historic linguistics as well as important structural elements of the Spanish and the Romance Language in general will be covered. Students will learn about the most important linguistic theories. They will acquire central techniques of the academic work (information research as well as preparation and presentation of information) concerning the Romance linguistics. |                   |                                      |
